

3 Pennsylvania Place Ottumwa, Iowa 52501 641-683-3372

October 10, 2020

Vista Woods continues to do surveillance testing of both residents and staff. One staff tested positive today with a rapid test and those results are being confirmed through the State Hygienic lab. No further positive cases have been identified. That employee is isolating at home until released by Public Health.

We continue to require our staff to wear their PPE and use good hand hygiene. Almost the entire State is in an outbreak and Wapello County's CMS rate went up to over 15%. All indoor visitation remains restricted for the time being.

We continue to have two positive residents in our isolation area and two staff being isolated at home with COVID-19.

Please stay safe and we will continue to keep you informed of all status changes.
