

3 Pennsylvania Place Ottumwa, Iowa 52501 641-683-3372

February 9, 2021

Last night another staff member tested positive for COVID-19. Today we sent an additional test on that employee to the State lab to confirm. It was also reported today that a shared contracted employee tested positive at another facility. These cases have been reported to local and State public health officials and their recommendations are being followed. We continue to have 5 residents positive in-house in isolation. All residents are monitored daily and staff are screened prior to working their shifts. Both residents and staff are being tested twice per week. The pandemic continues to be frustrating for all of us and we sincerely appreciate your on-going support.
