

August 3, 2020

One employee did test positive with the facility's last round of COVID-19 testing. That employee has been off work for the past few days and will be required to remain off work for a minimum of ten days. We will be doing another round of testing this week. It is our priority to keep all residents and staff safe during this crisis and will be monitoring everyone daily. All staff must continue to wear their PPE to protect each other.

Our entire community has recently had a large spike of active cases, all ages. We will continue to be as transparent with our notifications to you.

We continue to restrict visitors for our own residents' protection and follow guidelines from various local, State and Federal agencies involved with the epidemic.

We also want to thank all of the residents and their families for their support and patience.
