

October 7, 2020

Vista Woods Care Center has been notified that a contracted employee that has tested positive for COVID-19. This employee has followed all guidelines for personal protective equipment (PPE) while in the facility. We continue to report all changes to Wapello County Public Health, Iowa Department of Public Health and the Department of Inspections and Appeals.

We continue to perform surveillance testing on our employees. We have had no positive results over the past two weeks. We are also performing surveillance testing on our residents as a result from this instance.

This employee has been quarantined to home for a minimum of 10 days and is following public health guidance. We continue to screen all employees before and after their shifts. They are required to wear their face masks while inside the building and other PPE when working with residents. We also continue regular screening of our residents daily.

Cases of the Corona Virus have greatly increased in the county and across the country. It is extremely important that everyone continues to social distance, wear face masks and practice good hand hygiene.
